

THINNER for EPOXY SYSTEMS

THINNER FOR EPOXY PRODUCTS

PRODUCT DESCRIPTION

Thinner for epoxy products is a mixture of properly selected organic solvents, designed for using with epoxy primers. Facilitates their spreading and drying.

CAUTION! The exact proportions are specified in data sheets of particular products. To maintain safety, always follow the instructions given in the MSDS for the product.

STORAGE

Store the product in a sealed container, in dry and cool places, away from fire and heat sources, as well as direct sunlight.
